Gary-

Do you have the contact info for the folks that complained about a lack of warning signs? We have lots of signs in Channelview and some upstream already. I am trying to determine the exact locations where they would like to see signs placed.

Scott

Thanks, Scott I was on travel last week. Gary Miller had the contact and called them back to discuss. However, I think we need to provide warning information in that area. I mentioned this to TDSHS (Tina) and suggested they may want to coordinate with GBF on providing some type of information near Channelview, and upstream...perhaps a few signs .. They concur.

Thanks, Donn.

If the person who called about warning signs was speaking of seafood consumption signs, can you give me their contact info or give them my contact info and ask them to call me?

FYI that GBF did not place signs in Meadowbrook Park itself because it appeared that the lake was landlocked and freshwater, rather than connected to the San Jacinto River. I can look into that more and see about getting a sign placed there if appropriate. Would be helpful to hear from this person.

Scott

Ok, as of now we're looking at late January.. Also,..we received a call from a citizen complaining that there are no warning signs regarding the Site and health hazards. They reside near Meadowbrook Park in Channelview. Gary asked if GBF or anyone else placed warning signs in that area. We think one of our partners did this originally??

Hi Donn-

Please provide the date, time and location as soon as it is available and I will send out to my contact list.

Thanks-
Scott

Subject: San Jacinto Waste Pits Site CAC Update

As a result of the Government shutdown and related activities, we did not schedule a November

CAC meeting. We will postpone that until after the Holidays and instead conduct a Community wide open house in January for residents, to update the RI/FS and other recent site events.

Thanks
